

Our Power & Control line of Business offers solutions that safely distribute power to your home or business.

Our product range includes Low/Medium Voltage Panels and Enclosures designed and built with features, ratings, and performance that consistently help you meet the needs of specification, consultants and contractors.

We also provide a complete line of residential, commercial and industrial wiring devices and accessories developed by our own manufacturing facilities.

Pillars

Pillars, MCC and power factor correction:
our range of Low Voltage Distribution Boards include
those for main distribution, sub distribution and Motor
Control Centers suitable for different applications
depending on customers' requirements.
